

WELCOME

Alexander Rose are recognised throughout the UK and Europe for the quality and design of our sustainable outdoor furniture products.

Furniture is our passion and we are committed to providing outstanding design, quality and customer service.

TIMBER STORY

Alexander Rose has been at the forefront of garden furniture design and manufacturing since 1994, and has gained a reputation as a market leader for high quality wooden furniture.

For over twenty five years we have designed classic wooden benches, tables and chairs using a variety of durable hardwoods and softwoods. Our timber is carefully selected for its properties, so we are confident that we offer the best wooden furniture available on the market.

Our timber catalogue offers full ranges of furniture from sustainably sourced woods. Our premium hardwood ranges are made from the strongest and most durable timbers for outdoor furniture; Roble from Bolivia and Teak from South America.

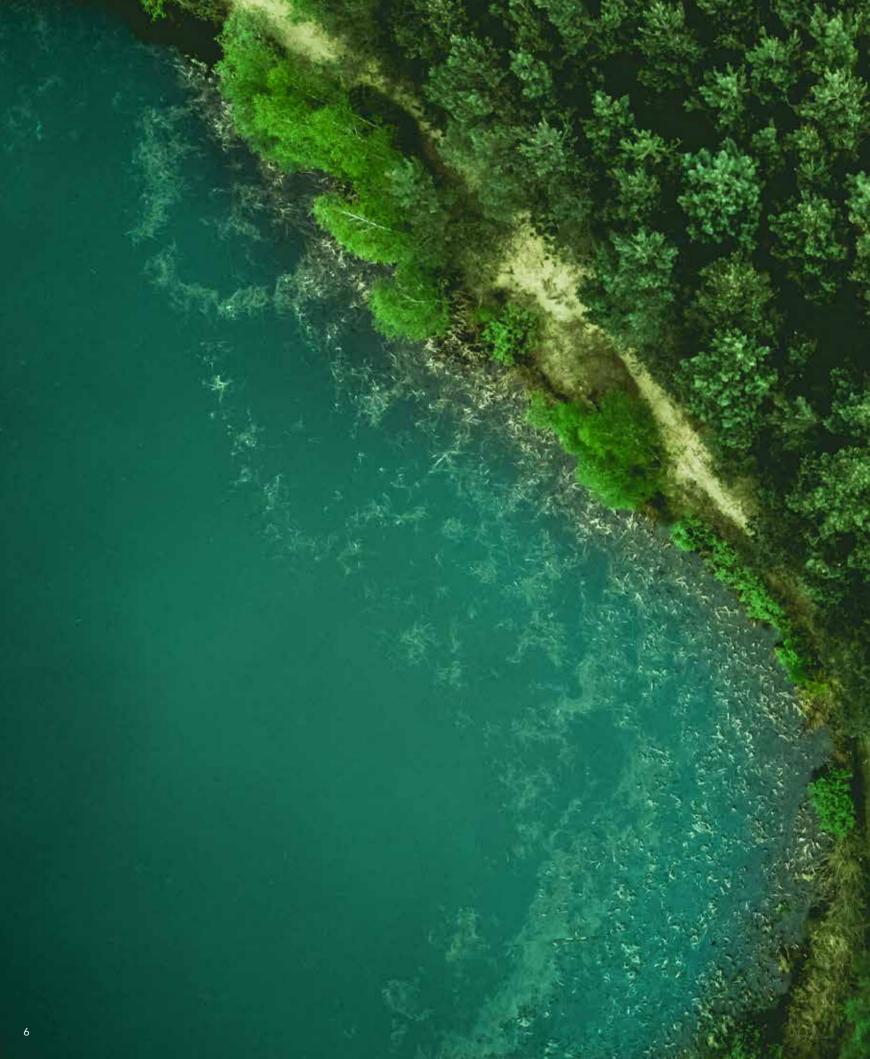

We also offer hardwood ranges in Mahogany and Acacia, in a variety of painted colours; Chestnut for the Sherwood furniture, Grey for the Old England and White for the New England. We also have one softwood range made from European Pine.

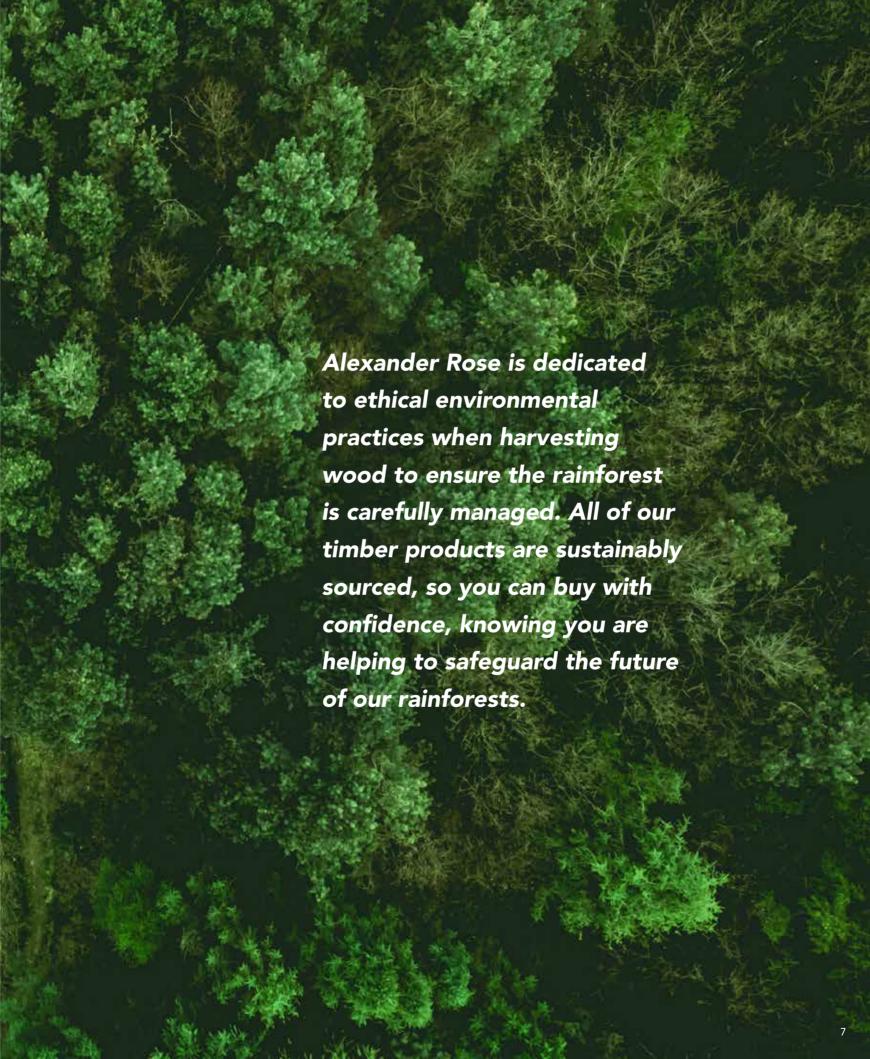

2021 sees the launch of the Sorrento, a visually stunning set of modular teak furniture by our in-house design team.

As you scroll through our latest catalogue, we are sure that you will find something to suit your needs and your style.

SORRENTO

(tectona grandis)

Alexander Rose is proud to launch the Sorrento collection.

This visually stunning modular furniture is a result of an exciting in-house collaboration between our Head of Design, Alan Morley and our Graphic Designer/Photographer Stefan Leth.

Their desire to create a beautifully crafted collection has come together over many months, to give the most visually appealing and comfortable result. Using sustainably sourced Teak as the chosen timber, Alan and Stefan challenged our factories' machining capability, in order to achieve the slatted back feature that epitomises the Sorrento. Deep seating luxurious cushions have been developed using high quality Sunbrella® fabrics.

Our Sorrento is FSC® 100% certified.

See page 19 for fabric options.

ROBLE

(amburana caerensis)

Our Roble collection provides some of the most beautiful garden furniture available in a selection of contemporary and traditional designs. Whether you prefer precise angles or traditional classic designs, you will find the perfect piece of furniture to complement any outside space.

Manufactured in our own factory in Bolivia, this timber is extremely durable. It has a smooth lustre, with a closely interlocked light yellow grain. Our olefin cushions are available in charcoal and oatmeal and come with a 2 year warranty.

Our Roble is FSC® 100% certified.

SHERWOOD

(acacia mangium)

Our Sherwood range is made from Acacia hardwood and is designed to have a rough, rustic finish, it is one of our most popular ranges. Whether you are looking for a bench, a dining set or lounger, there will be something to suit your taste and budget.

The brushed finish of this collection is achieved by treating the wood prior to assembling each individual piece. Our Sherwood collection comes with a 3 year warranty.

Our Acacia is FSC® 100% certified.

OLD ENGLAND

(acacia mangium)

Our Old England furniture consists of three distinctive dining sets as well as a lounge set - two in a brushed grey finish with matching benches and one in a brushed grey finish with woven bucket chairs. The furniture is finished in a durable polyurethane paint.

The look and feel of our Old England furniture is manufactured to give an aged appearance. Should you wish to treat your furniture this can be done by lightly sanding it down periodically and re-applying a coat of satin paint.

Our Old England is FSC^{\otimes} 100% certified.

PINE

(pinus sylvestris)

Pine is an extremely popular softwood for making garden furniture. Our Pine is carefully sourced from responsibly managed forests in Eastern Europe. Each piece has been treated in order to make it suitable for outdoor use.

The timber has a figurative grain and the yellow/green colour will mellow over time to an attractive silver/grey. This rustic collection of furniture is ideal for a traditional English country garden.

Our Pine is FSC® 100% certified.

ACCESSORIES

Enhance your outdoor space with our extensive range of accessories; from colourful scatter cushions and parasols to protective furniture covers and treatments.

We offer a selection of weather resistant storage bags for your cushions, which we recommend you use to protect them from the elements.

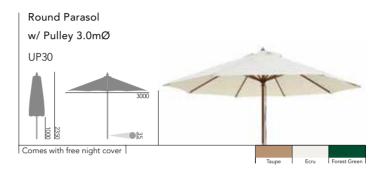

For personalising your timber furniture, we offer an engraving service directly onto the timber or a choice of brass or stainless steel plaques.

For full warranty policy on our range of accessories please refer to our website.

HARDWOOD PARASOLS

Alexander Rose hardwood parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height and place the brass pin in one of the pole holes to secure. To lower the parasol remove the locking pin and slowly let the rope pass through your hands until the canopy is folded. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

LUXE HARDWOOD PARASOLS

A twist on our classic hardwood parasol, the Luxe hardwood parasol is a new edition for 2021. With the same trusted pulley and locking pin system, what's different about this parasol is the addition of faux leather patches covering the canopy's tips to

reinforce the material. The thickness of the parasol's pole has been increased, making for an all-round sturdier parasol. We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

CANTILEVER PARASOLS

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated to follow the sun. They are free standing, which allows you to position the furniture underneath rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame. For best results use a soft brush or broom and warm soapy water. For more stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

UH35

The UH35 is an 8 spoke 3.5m cantilever parasol. As with the UHP, its easy crank mechanism makes raising and lowering one smooth movement. The canopy can be adjusted into 7 positions to give maximum shade from the sun. Use with our UHGB90 granite base. The UH35 comes with a free night cover.

CANTILEVER PARASOLS

UHP

The UHP parasol is easy to operate with the simple handle and lock mechanism. To rotate the parasol simply unlock the handle and move into the desired position, and then lock the handle to secure. The UHP can be easily bolted to an Alexander Rose UHGB50 granite base. To be used with a FC17 cover.

UH30

The UH30 is an 18 spoke curved 3.0m cantilever parasol. As with the UHP it is easy to raise and lower the canopy with a crank handle mechanism. The canopy can be adjusted into 7 positions to give maximum shade from the sun. The parasol also has a foot operated pedal for 360° rotation. For use with the UHGB90 granite base. Comes with a night cover.

GRANITE BASES

We recommend using the GB11 (11kg) for a four seater set and GB20 (20kg) or GB30 (30kg) for six seater sets or more.

COMPOSITE BASE

The composite base is for use with parasols being used through the centre of a table.

It has a locking handle on the stem of the base to secure the parasol in place, minimising movement.

CANTILEVER BASE 50KG

The UHGB50 base is designed to be used with the UHP range of cantilever parasols.

It has convenient small wheels, allowing the base to be moved along a flat surface easily.

CANTILEVER BASE 90KG

The UHGB90 base has been designed to be used with the UH35 and UH30.

The UHGB90 has locking wheels to secure the parasol and prevent any movement.

CUSHION STORAGE BAGS

CUSHION STORAGE BAGS

Our cushion bags come in three sizes; small, medium and large, to accommodate your set of cushions. All of our bags are weather resistant. We recommend storing the cushions in the bag in a dry place when not required.

SMALL CUSHION BAG

The small cushion bag is designed for furniture cushions, it will also hold several scatter cushions.

MEDIUM CUSHION BAG

The medium cushion bag is designed for sofa set cushions and many other sizes of cushion.

LARGE CUSHION BAG

The large cushion bag is designed for our larger cushion pieces, such as the Ocean Hut, modular sofa sets and Beach Lounge sets.

FURNITURE COVERS

Our covers are breathable and protect against the build up of dirt and ensure less furniture maintenance is required. The covers come with ties and cords for securing to the furniture. It may be necessary to place an object such as a bucket between the furniture and the cover. This will reduce the amount of sagging and will help the airflow around the furniture. This will prevent the chance of rotting occurring.

INSCRIPTIONS & ANCHORS

BENCH ENGRAVINGS

Alexander Rose offers an engraving service with three options: brass plaque, stainless steel plaque and direct engravings onto our furniture. Our brass plaque offers a more traditional look for your inscription. Stainless steel plaques provide a more contemporary look with a silver shine, and they will not rust.

If you are looking for something unique we offer a direct engraving service. Your inscription is carved directly into the timber by a computer-aided engraving machine. A direct engraving will mellow down along with the bench to a silver/grey finish if left untreated. You will find treatment recommendations on page 126.

FURNITURE ANCHORS

We have designed two types of anchors for different surfaces, the most common being lawns. Using an Alexander Rose soft ground anchor kit avoids the need for concrete. Installation is quick and easy without any mess.

Our soft ground anchors come with solid brass plates that screw onto the outside legs. These have sleeves to allow the anchors to pass through and penetrate the surface. When an anchor approaches its maximum depth (500mm) a curved fluke is released to grip the bench further into the surface, adding more security.

Our bolt down anchors are designed to be used with concrete. They have a maximum depth of 110mm and require a 20mm masonary drill bit to install them.

TIMBER TREATMENT

Alexander Rose manufactures garden furniture which will last for many years. Over time, as part of the natural weathering process, cracks and splits will appear in the wood, particularly on the end grain and to a lesser extent on the surface. The drier the wood, the more cracks will appear due to the evaporation of natural oils and minerals in the wood from exposure to the elements. As with most hardwoods, this is a normal characteristic for any timber which remains outdoors. Our timber furniture is designed with this in mind and its strength and durability will remain unaffected.

Wooden furniture can be treated with our specially formulated care products to give a beautiful rich finish and enhance the look of the wood. Alternatively it can be left to turn a mellow silver/ grey, and should be cleaned occasionally with soapy water.

TIMBER MAINTENANCE

TIMBER MAINTENANCE

Weathering occurs over a period of time, and you can expect to see changes in the timber after a few weeks. Timber is a natural material, it absorbs moisture in wet conditions and is likely to expand. In dry conditions the timber dries and may shrink a small amount. As the material moves, surface cracks will appear in the timber. You can maintain the appearance of your furniture by lightly sanding down the timber and applying one of our specially formulated care products.

The white Painted Acacia furniture is produced by applying a polyurethane paint to the Acacia timber. After time there may be hairline cracks in the finish, due to the timber moving. Expansion and contraction of timber is normal and is caused by climatic variation, this is more noticeable around the joints.

New England benches are designed to be used outside, we recommend regular maintenance to retain their original condition. This can be done by sanding the affected area down to the natural timber, then evenly re-applying a white satin polyurethane paint to the area. Polyurethane paint can be purchased from any DIY or Hardware store. If you are unsure about what paint to use please contact Alexander Rose.

All sizes, weights and dimensions are an approximate figure. We reserve the right to change and improve designs and specifications without notice.
